Supplement 2. SEARCH STRATEGY

Key Question 1 - Screening

<table>
<thead>
<tr>
<th>HCC</th>
<th>&quot;hepatocellular carcinoma&quot;[Title/Abstract] OR &quot;HCC&quot;[Title/Abstract] OR &quot;Carcinoma, Hepatocellular&quot;[Mesh] OR &quot;liver cancer&quot;[Title/Abstract] OR &quot;Liver Neoplasms&quot;[Mesh]</th>
</tr>
</thead>
</table>

Key Question 2 - Harms of Screening

(note: medical adverse effects of screening would be included in above search; an additional search was designed to capture psychological harms of screening specifically)

<table>
<thead>
<tr>
<th>HCC</th>
<th>&quot;hepatocellular carcinoma&quot;[Title/Abstract] OR &quot;HCC&quot;[Title/Abstract] OR &quot;Carcinoma, Hepatocellular&quot;[Mesh] OR &quot;liver cancer&quot;[Title/Abstract] OR &quot;Liver Neoplasms&quot;[Mesh]</th>
</tr>
</thead>
</table>

The searches developed for MEDLINE were adapted for the Cochrane Central Register of Controlled Trials and searched on 6/28/2013.

An additional search for psychological harms of screening was conducted in PsycINFO (via OVID) on 4/22/2014: ((("hepatocellular carcinoma"[Title/Abstract]) OR "HCC"[Title/Abstract])) OR ("Carcinoma, Hepatocellular"[Mesh]) OR ("liver cancer"[Title/Abstract]) OR ("Liver Neoplasms"[Mesh])

ClinicalTrials.gov was searched on 5/13/2014 using with the heading "Hepatocellular Carcinoma" with no limitations on study type, recruitment status, etc.
