* Study used a troponin assay manufactured by Dade.
† Study used a troponin assay manufactured by Abbott.
‡ Study used a troponin assay manufactured by Beckman.
§ Study did not report the manufacturer of the troponin assay.
‖ Study used a troponin assay manufactured by Johnson and Johnson.
** Study used a troponin assay manufactured by Ortho.

CI = confidence interval; cTnI = cardiac troponin I; elev = elevated; MACE = major adverse cardiovascular event; mcg/L = micrograms per liter; NR = not reported; OR = odds ratio; yrs = years

Boxes indicate individual study point estimates. The box size denotes the weight of the study, with larger boxes contributing more to the pooled estimate. The width of the horizontal lines represents the 95 percent confidence intervals for each study.

CI = confidence interval; cTnI = cardiac troponin I; elev = elevated; MACE = major adverse cardiovascular event; mcg/L = micrograms per liter; NR = not reported; OR = odds ratio; yrs = years
